LOCAL NEWS.

BLOODY AFFAIR. -A report reaches here from Fauquier county, to the effect that on Saturday last a colored man named Haines went to the house of his mistress-who, howeger, had gotten tired of him-between Markham and Piedmont, and seizing a hatchet, made a murderous assault upon its inmates the woman and her two children, by another mas-cutting and slashing them terribly. The woman resisted him vigorously, and fought him from the house to a straw rick near by where the bloody and savage fight was ended by het splitting his head open with an axe and stretching him dead at her feet. The woman, too, was hurt seriously, and the children so baldy, that they will probably die.

BY TELEGRAPH.

New Hampshire.

NEW YORK, March 9. - A special dispatch to the Times from Concord, N. H., says the campaign ended last night with great meetings in the larger cities of the State, held by both parties. Both parties show by their canvasses that the State is sure, and it is impossible to predict the result. There can be no doubt that both parties are in a better condition than ever before. The Prohibitionists are scarcely heard of, and the feeling is that they will very generally vote with the Republicans. About Congressmen there is little talk, the interest being centered in the Gubernatorial contest. It is thought the First District will be carried easily by the Republicans. The Second will be saved by a small majority, and the Third will go to a Democrat. The excitement over the naturalization frauds is great. Yesterday two arrests were made, and one man confessed he had falsely sworn and had run in several men and intended to grind the mill further. sleet or snow-if the precedent established There is exciting talk here but no serious trouble is apprehended. All are hoping for a good day, much depending on the weather.

MANCHESTER, N. H., March 9.-The election throughout the State is progressing quietly, the excitement preceeding the election having given away to calmer feeling. Voting is brisk and up to noon a larger vote has been polled than ever before. Both parties are polling their full strength and there are but few split tickets. In this city the democrats lead in a majority of wards, and express confidence of being able to carry the city.

Crime. CHICAGO, March 9.- Lnst night about 11 o'clock agirl named Tierney, aged 16, stabbed a boy on Church street named Fish, aged 17 years, cutting close to his heart and penetrating the lung. He will die. She claimed that he had seduced her. After the affray she

was found intoxicated in a house of ill tame. Detectives have arrested a woman named Della Wallace and a man named Anderson on suspicion of having murdered Welcher, the saloon keeper.

CINCINNATI, March 9. - In Indianapolis last

night a man named Lewis Bishop cut his wife's throat because she refused to live with him. CINCINNATI. March 9 .- A defalcation of about \$20,000 divided between the ticket and freight offices of the Baltimore and Ohio Railroad Company at Zinesville, Ohio, is now undergoing examination by the Auditor of the Ohio Division of that company. A young man named Howard handled the funds of both departments but thus far he has been unable to

account for the discrepancy.

NEW YORK, March 9.-A Newport, R.I., telegram says: "Civil rights privileges were on Sunday awarded to two colored ladies at Trinity Episcopal Church, the most aristocratic place of worship in the city, and one visited almost exclusively by the clite of the place, and by summer visitors. The ladies were shown to a vestryman's pew, who they represented to the sexton had invited them. The vestryman was absent and the sexton at once showed them to the desired pew, which was occupied by two ladies, who were strangers and who had previously been shown in. The latter were highly indignant at what they termed an outrage, and at once arose and left the church. The objects of the attention of all present (the colorad ladies) remained. This is the topic of sale by feb 17 conversation here as it is the first time a color-The inmates of the poor's house numbered ed person was ever admitted to a prominent seat in that church."

The Transit of Venus.

NEW YORK, March 9.-A dispatch from the Cape of Good Hope February 11, says : The U. S. steamship Mooongahela brings news from the American scientific expedition located at Kerguelen Land for the purpose of observing the transit of Venus. Their labors in observing the planet's track on the 9th of December were eminently successful. The weather was very favorable considering the general state of the weather on Dessolation Island. The English and French parties stationed there for the same purpose were also successful in ob-serving the phenomenon. Several excellent photographs of the sun at periods of the planet's contacts were obtained. All the instruments of the Americans worked with great sat-

New Jersey State Officials.

TRENTON, Mar. 9. - The prospects of a joint meeting to fill the offices of State treasurer, keeper of State prison, &c., are not very flattering. These offices are now filled with Republicans. The House is Democratic and the Senate Republican, and when they meet in joint meeting the Democrats are in the majority. The officers can hold over and the Republicans are anxious that they should do so. A compromise has been talked of but not yet agreed upon. There is not much feeling on the subject.

Fire.

MONTREAL, March 9.- The Grand Trunk Railway buildings at Point St. Charles, comprising a large frame structure, 400 by 100 feet, the freight car repair sheds and a back building adjoining, the upper part of which was occupied as general offices, were burned this morning. Loss estimated at about \$189,000: insur d for \$60,000, mostly in American

Charley Ross.

NEW YOKK, March 9. - The visit of Mr. Ross, here yesterday, was occasioned by the receipt by that gentleman of several letters from a lady, residing in Brooklyn intimating that she thought she knew where Charley Ross was, but a detective who investigated the matter found the information to be valueless.

The Tilton-Beecher Suit.

NEW YORK, March 9. - Upon the resumption of the trial of the Tilton-Beecher suit today, defendant and his wife were absent. Mrs. Tilton was present for the first time since the defense opened. The defence called Geo. W. Lincoln as a witness, who was examined. Samuel E. Belaher was the next witness.

all Fertilizers must be judged—that of the Plantation.

Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer

enabled to put our Guano on the market in a condition, as to dryness and freedom from lumps, equal to any manufactured Fertilizer.

We solicit a careful perusal of our Circular, containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. Having nothing to conceal, we made an innovation on established usage, by publishing those letters received unfavorable to our Guano; but careful inquiry in many cases proves that the cause of its failure was not owing to any fault in the Guano, but to those far beyond our control. We have frequently heard the same complaints of its kindred Fertilizer, Peruvian Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme Western counties of North Carolina, justify us in claiming a place for our Fertilizer Superior to many, and Second to None.

GUANAHANI GUANO COMPANY, PETERSBURG, VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion we formed and expressed last season, based on its Chemical Constituents, has been most satisfactorily borne out by the test by which

and fall, and having large and well ventilated Warehouses in Petersburg and City Point, we are enabled to put our Guano on the market in a condition, as to dryness and freedom from lumps,

us in claiming a place for our Fertilizer Superior to many, and Second to None.

We confidently expect the continued patronage of the Agricultural Community, and no exer-
